ductive industries and labors of the country, and to distribute as equally as possible the burden of taxation. 8. As at present advised, it occurs to me that the candidate for President should be taken from the West, though I am not now sufficiently informed to commit myself to any particular individual. Payne with a good eastern man behind him would make

good race, and there is no better man in the party than Thurman.

9. I do not think the Democrats of this section are wedded to any particular indisale. vidual, but are prepared to give their hearty support to any good and true man who may be selected by the Convention.

CONNALLY F. TRIGG'S OPINION.

1. Yes. 2. I am of opinion that the Convention will be largely attended by representative men. There will be a full delegation from this county, and, I think, from the South-

west generally.
3. If the tariff were the sole issue in the coming canvass the people of this section would, in my opinion, by a large majority favor reform in this direction, and as one means leading to this would accept the Morrison bill. I believe that they favor a tariff for revenue only, and are not therefore for protection in the strict sense of the term. Not being able to determine what effect the agitation of the tariff will have upon the Democratic party in other sections of the country, the opinion is very general here that it ought not to be discovered by the section of the country. turbed, but allowed to remain where the party put it at Lynchburg. Our people much prefer a reform in the affairs of the

the present corrupt and venal administra-tion, and abolish the internal-revenue system, to any relief they can hope to get through a reduction of the tariff. 4. In my opinion, Samuel J. Tilden. 5. Four delegates at large and two from each of the ten congressional districts.

Government that will sweep from power

6. I do not think they ought to be. 7. That Convention will doubtless treat that cuestion as did Ohio, Virginia, and

Pennsylvania. 8. Samuel J. Tilden. 9. I believe he is the choice of a very large majority of the people in this section, and I would prefer to make the canvass in his behalf, believing that mere enthusiasm could be aroused amongst the people for him than for any other candidate we could

WHAT CHARLES W. BUTTON SAYS.

 Yes.
 Fair as to numbers and excellent in character.
3. It will probably reliterate the tariff plank in the Lynchburg platform, if the subject is dealt with at all.

4. It is probable that a majority may be found in favor of Tilden, but it is doubtful whether there will be any decided utterance on that subject.

ful whether there will be any decreed use terance on that subject.

5. Can't say; but accepting the action of the last Legislature in redistricting the State as legal, should think that only four delegates at large would be chosen.

6. I think not, as it is not customarys with us, and the delegates ought to be left to the exercise of their best judgment, with

all the light before them at the Conven-

7. The Ohio, Virginia, and Pennsylvania in substance, I think. 8. The man that can earry the doubtful States-Tilden first, if available.

9. I have no favorite; am for the best GENERAL WHARTON. Answer 1. It is my purpose to do so.

2. From best information the Convention will be full and composed of representative took up the Chinese bill. . This is intended

Convention?

I think this has been plainly set forth in every platform of the Democratic party since the days of Jefferson, and has never been departed from, except when Greeley was accepted by the Democracy as a can-location for such an institution. No was accepted by the Democracy as a candidate to defeat the ultra radicalism of the Republican party, which was reeking in corruption and defying the Constitution in order to retain pelf, place, and power. Then it was referred to congressional districts for decision.

I tical purposes—and would be a far better come a merchant, was not permitted to land at San Francisco. He called the bill twelve dreary pages, which were a work of paper and ink.
